## DOCTOR JOSE LOPEZ APPOINTED MEDICAL DIRECTOR OF CLINIQUE LA PRAIRIE

Clarens-Montreux (Switzerland), 19th March 2018 - Clinique La Prairie (CLP), the Swiss leader amongst private clinics of international stature, is delighted to announce that **Doctor López has been appointed to the post of Medical Director.**

Formerly the head doctor in the radiology department at the Riviera Montreux-Vevey hospital and the hospitals of the town of Neuchâtel, Dr. López holds a degree from the Faculty of Medicine at the University of Lausanne, where he specialised in radiodiagnostics. Associate professor of radiodiagnostics at the University of Cayetano Heredia in Lima (Peru), Dr. López is a member of numerous international associations in the field of radiology, cancerology and biology. He joined Clinique La Prairie in 2007. In his new role, Dr. López will be in charge of:

- **Managing the affairs of the medical department in collaboration with the general management and the Deputy Medical Director**
- **50 doctors with expertise that covers 25 specialist fields of medicine**
- **Recruiting new specialist doctors so as to broaden the range of medical services currently offered by the Clinic**
- **Maintaining an efficient, exacting and innovative department**

At Clinique La Prairie, Dr. López will be tasked with maintaining the activity and the quality of the medical and surgical departments. Furthermore, he wishes to establish close professional ties with the region's various medical bodies and university institutions.

Indeed, he is passionate about breaking down the barriers between hospitals, private clinics and universities.

**“It is an honour for me to be able to work closely, every day, with the general management and the other medical departments at the Clinic.** Our top priority is to improve the level of interdependency between the hotel sector and the medical sector. On top of this, I am a keen advocate of maintaining an excellent service with regard to our international patient body”, Doctor López, Medical Director, CLP.

Dr. López was enormously proud to receive the Board of Directors’ congratulations on this appointment, as they wished him every success in fulfilling his responsibilities in the future. **Mr. Simone Gibertoni, CEO of CLP, is delighted that Dr. López has been promoted from within the ranks of the Clinic: “He is one of the pillars on which our medical centre relies, always seeking the best-performing solutions for the patient’s wellbeing.”**

Dr. López brings with him his experience and his desire to be at the forefront of new technology, the number one objective at Clinique La Prairie.
