LA CLINIQUE LA PRAIRIE INAUGURATES NEW CENTRE FOR AESTHETIC MEDICINE

Clarens-Montreux (Switzerland), 1 June 2018 - [La Clinique La Prairie](#) (CLP), Swiss leader in world-class private clinics, will have the pleasure of **inaugurating its Centre for Aesthetic Medicine on 14 June 2018.**

The centre is dedicated to the well-being of its patients and will offer a **complete range of natural regenerative treatments.** Various injection, exfoliation and laser procedures and the latest methods for lifting and remodelling the body without invasive surgery will be available.

The objective is to hydrate, regenerate, renew skin firmness, soften wrinkles and sculpt the body, **gradually slowing down** the aging process.

Dr Parzin, a specialist in aesthetic medicine for 20 years, defines a treatment programme for each patient according to their individual needs. **“We refer to our work as ‘haute couture’, because every person is unique.”**

La Clinique La Prairie has **state of the art equipment:**

- **The Cutera laser is used to** treat dark spots and visible spider veins on the face and body.
- **The ablative laser** is used to reduce the appearance of scars, even out the skin and reduce wrinkles.

The centre also has a **body sculpting machine** that **promises impressive results:**

- **Coolsculpting:** an innovative, non-invasive solution for eliminating part of the fat cells using cold temperatures.

The most advanced lifting methods, such as **thread lifting** to correct facial sagging, are also available. CLP also practices different types of injections, including **PRP injections** (platelet-rich plasma), a natural treatment that allows skin to progressively regenerate and regain firmness.

“Beauty is an abstract notion linked to many aspects of existence,” says **Arnaud Marche, COO of la Clinique La Prairie.** “It is closely linked to the health and the harmonious balance of the body and the mind. **La Clinique La Prairie offers a wide selection of exclusive treatments with a range of devices for alternative, non-invasive, high-tech therapies recommended by many experts.”**

ABOUT THE CLINIQUE LA PRAIRIE

Founded in 1931 by Professor Niehans, a pioneer in the development of cell therapy and longevity, Clinique La Prairie has over the years established an international reputation as a world-renowned medical clinic and wellness destination, located in Switzerland, a country highly reputable for its high level of medical expertise and care.

Thanks to ongoing scientific research, Clinique La Prairie is regarded as a leading light in preventative medicine due to its unique Revitalisation programme, designed to promote vitality, enhance the immune system and slow down the ageing process.

Guests stay in one of 35 rooms and suites in the three buildings located on the premises, with stunning views of the Alps. The Residence, Clinique La Prairie's original building is reminiscent of the opulent charm of early 20th century grand hotels. The multi award winning Medical Spa of Clinique La Prairie's an oasis of beauty and wellness. Carefully crafted by the clinic's medical team, the Spa menu features over 50 results oriented treatments for visible results, promising to satisfy the needs of even the most demanding clientele.
